Carolina Panizzi

Software Engineering Student at PUCRS
Porto Alegre, Brazil | +55 51 98223-0882 | panizzicarol@gmail.com | LinkedIn | GitHub

PROFILE

Software Engineering student at PUCRS with one year of internship experience at Dell Technologies, contributing to software development, application maintenance, and database management. Knowledge of Python, C#, JavaScript, React, and collaborative software development. Fluent in English, with a strong interest in Artificial Intelligence, Large Language Models (LLMs), and the development and integration of AI-powered software solutions. Eager to expand technical skills and contribute to innovative AI-driven products.

WORK EXPERIENCE

Dell Technologies — Software Engineering Intern
• Maintained and enhanced websites and C# applications.
• Supported database management activities, mainly using MongoDB and RabbitMQ.
• Collaborated with software engineering teams on software maintenance, improvements, and development activities.

IDE Junior Enterprise — Marketing Team Member
• Developed websites and basic applications using CSS, JavaScript, and React, contributing to front-end development projects.
• Worked on web design, branding initiatives, and social media management, including content creation, partner outreach, client communication, and meeting coordination.

LEADERSHIP EXPERIENCE

NGO Interact Club Canoas (Rotary)
• Held multiple leadership positions, including President, Secretary, Treasurer, and Marketing Director, over a four-year period.
• Organized and contributed to community service campaigns and projects focused on collecting and distributing school supplies, toys, food, and essential items to individuals and families in need.

EDUCATION

Pontifícia Universidade Católica do Rio Grande do Sul (PUCRS)
Software Engineering (2026 - Present)

Universidade Federal do Rio Grande do Sul (UFRGS)
Computer Engineering (2022 – 2025, transferred)

TECHNICAL SKILLS

- Programming Languages: Python, C#, JavaScript, C
- Web Development: React, HTML, CSS
- Databases & Messaging: Oracle Database, MongoDB, RabbitMQ
- Development Tools: Git, Figma, Microsoft 365
- AI Tools: ChatGPT, OpenAI Codex, Claude Code, GitHub Copilot, AI-Assisted Programming
- Software Engineering: Object-oriented programming, database management, software development, web development
- Areas of Interest: Artificial Intelligence, Large Language Models (LLMs), AI-Powered Applications, AI Integration

SOFT SKILLS

Teamwork | Communication | Analytical and algorithmic thinking | Problem solving | Leadership | Time and task management | Attention to detail | Adaptability | Project organization | Collaboration

CERTIFICATIONS

- GitHub Foundations, by Microsoft Learn — Oct 2026
- Programming Fundamentals with AI, by PUCRS (268718-47-1) — Oct 2026
- Software Testing Fundamentals, by TIC em trilhas — Sep 2026
- Introduction to Interaction Design (UX/UI), by TIC em trilhas — Sep 2026
